

## FOAM RUBBER SHEETS AND STRIPS

1

The foam rubber used for our cups can be provided in sheets or strips of the sizes indicated in the table.

Both the strips and the sheets have a self-adhesive side which allows a quick and easy fixing to the metal support. These sheets and strips can be used to make cups of every shape and to handle loads with raw or very rough surfaces.

They can be supplied in different sizes and density upon request and in quantities to be defined in the order.

The working temperature ranges from -40 °C to +80 °C.

**Note:** GERANIUM foam rubber is obtained from the expansion of a natural rubber via a chemical-thermal treatment. The surface porosity can, therefore, vary without affecting its efficiency.

FOAM RUBBER SHEETS

Art.	A	B	E
<b>LGS 10 OF</b>	2000	900	10
<b>LGS 15 OF</b>	2000	900	15
<b>LGS 20 OF</b>	2000	900	20
